Latest news from France

The member organisation of the EMB and the milk producers in France remain very active and have organised and attended several events in recent weeks.

On September 13th and 14th the agricultural SPACE took place in Rennes in Western France. Members of APLI and OPL as well as a delegation of the EMB attended the show.

On October 6th an agricultural show took place in the region Auvergne and was also attended by members of both EMB member organisations.

And on October 20th the EMB has organised in close cooperation with its French member organisation a demonstration in front of the European parliament in Strasbourg.
