Press invitation 20/11/09: A close eye on the EU politicians

The eyes of the European milk producers will be fixed on the European Ministers of Agriculture when they meet in Brussels on 20/11/2009.

We would like to invite you as representatives of the media to a press conference in connection with the following action:

To symbolise the eyes of every European milk producer a huge eye will be erected at Rond-Point Robert Schuman in Brussels on 20/11. Guarded by tractors from the 14 member states of the EMB, this eye will be fixed on the EU politicians and will remind them of the milk producers and their protests outside in Europe. The dairy farmers of Europe will be following very closely what decisions are taken regarding the milk market. They demand serious political decisions towards a volume regulation – not pseudo-solutions.

Press conference: 20/11/09

Time: 10:00 hrs

Venue: Rond-Point Robert Schuman, 1040 Brussels
