“Reality check a major blow to political objectives”

Invitation to EMB press conference on January 19 at International Green Week in Berlin

Dear media representatives,

The past years have witnessed successive crises and despite these challenging circumstances farmers have been able to guarantee a reliable food production. As such, they are the foundation and the backbone of our food supply.

We all want sufficient food sovereignty and food security in the EU.

But is the current agricultural system stable enough to address this need?

Which instruments and reforms are needed to actually reach the ambitious political objectives aimed at more sustainability, regionality and independence?

The Board of the European Milk Board will be answering these questions during their press conference titled *“Reality check a major blow to political objectives”* which will be held during the International Green Week, in Berlin.

*We cordially invite you to join us at the EMB’s press conference
on Thursday, January 19, 2023
at 3pm on the exhibition premises – Hall 6.3/ Press centre, Room B, Messedamm 22, D-14055 Berlin*

The press conference will be held in German.

We look forward to welcoming you.
