Germany: BDM - dairy farmers will help themselves

(Freising) The situation on the milk market and the slow reaction of politicians has been the reason the BDM has developed a draft to decrease the pressure on the market. This draft adresses producers, dairy and politics to the same degree. It is a voluntarily obligating reduction of volume with financial compensation (FMS). In...

USA: Hearings concerning milk price crisis

The milk price crisis does not end at the European frontiers. It is a world wide crisis. Also in the United States of America farmers are confronted with the taugh consequences of the low prices. In July several hearings and the House Committee on Agriculture took place in order to discuss the crisis and possible solutions.

Spain: MANIFEST AGAINST THE NEW CONTRACT BETWEEN FARMERS' AND INDUSTRY

Last 20th of July, the interprofessional dairy association (which is formed by unions, industry, administration and distribution) made a decision: they signed a document, which is a contract between farmer and industry. In that contract it is very clear that Spanish farmer will receive a medium milk price 0,30-0,31 euros/litre,...
